

Indar[®] 75WSP

Section 18 Specific Exemption

For Control of Mummy Berry Disease in Blueberries

(For Distribution and Use Only within the State of Massachusetts)

ATTENTION

- **This specific exemption expires June 30, 2005.**
- It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
- This labeling must be in the possession of the user at the time of application.
- The product Indar[®] 75WSP fungicide, EPA Reg. No. 62719-421 (formerly EPA Reg. No. 707-239), (containing 75% fenbuconazole) manufactured by Dow AgroSciences LLC may be used. Existing stocks of Indar 75WSP purchased from the previous registrant, Rohm and Haas (EPA Reg. No. 707-239) may be used.
- All applicable conditions and restrictions on the federally registered product label for Indar 75WSP as well as the Section 18 use directions must be observed.

Directions for Use

Apply 2 oz of Indar 75WSP (0.09 lbs active ingredient) per acre using ground equipment. Begin applications at early green tip stage of growth and make subsequent applications at 10 to 14 day intervals.

Restrictions:

- **Chemigation: Do not** apply through any type of irrigation system.
- **Preharvest Interval: Do not** apply within 30 days of harvest.
- **Do not** make more than 5 applications or apply more than 10 oz (0.47 lb active ingredient) per acre per year.
- **Do not** use any spray adjuvants with Indar 75WSP.
- **Do not** graze livestock in treated fields or offer treated material as a livestock feed item.
- Applications are not permitted within 75 feet of streams, rivers, ponds, lakes, or reservoirs.

Any adverse effects resulting from the use of Indar 75WSP under this specific exemption must be immediately reported to the Massachusetts Department of Food and Agriculture.
